

Design *Standard* & Style Guide

A disciplined, premium design language drawn from military precision -- commanding clarity, dignified restraint, and earned trust.

React + Vite	TailwindCSS v4	Outfit . Cormorant Garamond . DM Mono	WCAG AA
--------------	----------------	---------------------------------------	---------

01 -- ICONOGRAPHY

Our icons are crisp, clean, minimal, and highly functional graphic elements meant to punctuate, inform, and highlight content. We use Lucide React exclusively -- outline only, never filled. Icons at 16px for inline use, 20px for navigation, 24px max for empty states. Always pair with a text label; never rely on icons alone to convey meaning.

					
Menu	Dashboard	User	Exam	College	Results
					
Timer	Correct	Wrong	Export	Suspend	More

02 -- OUR COLORS

One of the first impressions that comes across with color. Our primary colors are Corps Navy, Field Olive, Ceremonial Gold, and Parade Crimson. These are supplemented by a full neutral scale that allows us to emphasize digital elements as we need to drive hierarchy, yet still keep the brand look and feel balanced.

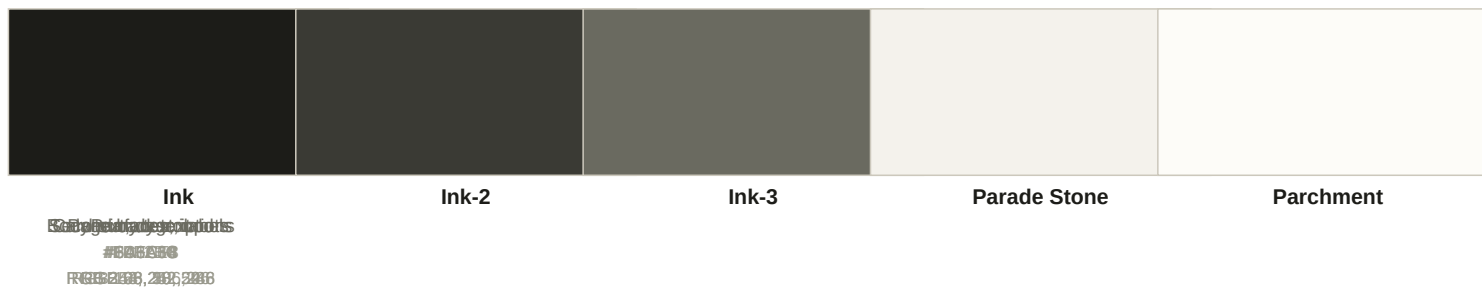

Primary Color Palette

Use our primary color palette first and frequently throughout our visual system, especially for hero application areas -- such as dashboard covers, examination portals, and landing pages. This approach will help us build equity in our color and make it an identifiable element of our brand.

			
Corps Navy #002060	Field Olive #4B5320	Ceremonial Gold #C4A000	Parade Crimson #A52A2A

Neutral Scale

The neutral scale provides the foundation for all text, backgrounds, and borders. Parade Stone is the page background; Parchment is used for card surfaces and inputs; Ink through Ink-4 create a clear typographic hierarchy.

Navy Scale (5-step ramp)

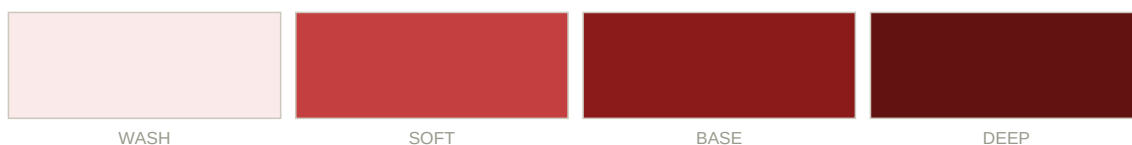

Olive Scale (5-step ramp)

Gold Scale (5-step ramp)

Crimson Scale (4-step ramp)

Rule: Use wash-level fills behind text of the base colour. Navy wash (#EDF1F8) behind navy-mid (#253660) text. Never mix ramps --

e.g., navy fill with olive text. Gold only on accent elements -- never as a background for body text.

Color & Accessibility in Digital

Our color palette was designed to meet WCAG 2.1 AA color contrast standards. When combining colors for on-screen text -- such as for buttons, infographics, or tables -- we must ensure all audiences can easily read our content.

Text Color	Parchment	Olive Wash	Navy Wash	Gold Wash	Crimson Wash
Ink (#1C1C18)	AAA	AAA	AAA	AAA	AAA
Navy (#1A2744)	AAA	AAA	FAIL	FAIL	FAIL
Olive (#3B3D2A)	AAA	FAIL	AAA	FAIL	AAA
Gold (#B8860B)	AAA	FAIL	AAA	FAIL	FAIL
Crimson (#8B1A1A)	AAA	AAA	AAA	AAA	FAIL
White (#FDFCF8)	FAIL	FAIL	AAA	FAIL	AAA

03 -- TYPOGRAPHY

Three fonts, each with a distinct rank. Cormorant Garamond for command-level presence (page titles, hero text). Outfit for all operational UI text (body, buttons, navigation). DM Mono for precision data -- codes, timestamps, registration numbers, table headers.

Cormorant Garamond -- Display Font

Regular . Medium . SemiBold

Page titles, hero text, dashboard greetings -- 52px -> 40px -> 32px

SAMPLE: Examination Portal

Examination

Portal

Outfit -- UI Font

Light (300) . Regular (400) . Medium (500) . SemiBold (600)

Body text, buttons, form labels, navigation, card titles -- 15px base

Cadets must complete the examination within the allotted time window.

B-Cert Theory Examination

DM Mono -- Data Font

Regular (400) . Medium (500) -- Uppercase for labels

Regimental numbers, timestamps, IDs, table headers -- 10-13px

AP/TRP/01234

12 APR 2026 . 09:47:23

REGIMENTAL NUMBER

Rule: Use Cormorant Garamond only for page-level headings and the dashboard greeting. All UI text -- buttons, labels, table cells, nav items -- uses Outfit. DM Mono is reserved for structured data only, never for flowing prose.

04 -- SPACING SCALE

Built on a strict 4px base unit. Every margin, padding, and gap is a multiple of 4. Generous spacing signals discipline and gives the interface room to breathe -- a well-drilled parade ground, not a cluttered barracks.

Size	Token	Visual	Usage
4px	sp-1		Icon-to-label gap, badge internal
8px	sp-2		Row gaps, tag spacing
12px	sp-3		Card internal gap, list item spacing
16px	sp-4		Card padding, form field gap
24px	sp-6		Section internal spacing
32px	sp-8		Component-to-component gap
48px	sp-12		Section margin, page rhythm
64px	sp-16		Page-level padding (desktop)

Minimum 36px height for all interactive elements on desktop. 44px for primary actions. This is non-negotiable -- do not shrink buttons, inputs, or table row heights below these values.

05 -- COMPONENTS

Buttons

Every button communicates the weight and consequence of its action. Primary actions are navy -- they carry authority. Destructive actions are crimson-tinted, never navy. Gold is reserved for promotion and rank actions only.

Primary -- Publish examination

Secondary -- Save draft

Ghost -- Cancel

Danger -- Disable cadet

Gold -- Promote to ANO

Button hierarchy rule: Only one Primary button per screen section. If two actions appear side-by-side, the lesser action is Ghost. Destructive buttons must never be Primary -- they are always Danger variant with a confirmation step before any API call fires.

Badges & Status

Status badges carry tactical meaning at a glance. They are always monospaced, always pill-shaped, always using the wash-to-base colour pairing. No icons inside badges.

Army

Navy

Air Force

Form Fields

Form labels are DM Mono, uppercase, tracked -- a direct reference to the precision of military documentation. Fields are generous at 38px minimum height. States are unambiguous: default, focus (navy ring), error (crimson ring).

REGIMENTAL NUMBER

AP/TRP/00000

Format: State / Unit / Serial (e.g. AP/TRP/01234)

EMAIL ADDRESS (FOCUS)

arjun.k@svcollege.edu

EXAM DURATION (ERROR)

0

Duration must be at least 10 minutes

Tables

Tables carry the most critical data. Headers are DM Mono -- precision labels. Row height is 44px. Hover states are subtle. Action column is always rightmost and right-aligned.

	Cadet	Reg. Number	Wing	Score	Status	Actions
	Arjun Kumar	AP/TRP/01234	Army	Passed	View Edit	
	Priya Menon	AP/TRP/01235	Navy	Failed	View Edit	
	Ravi Srinivas	AP/TRP/01236	Air Force	No Attempt	View Edit	

Stat Cards

Command-level summary numbers. The value is set in Cormorant Garamond -- the display font lends numerical data authority. Labels are DM Mono. Context text is Outfit Light.

Total Cadets Enrolled

Feedback & Toasts

System feedback messages are minimal and direct. A coloured dot encodes the category -- no icons, no heavy colours, no emoji. Every message uses active voice.

Success

Examination published. Cadets can now attempt from 12 Apr 09:00 onwards.

Error

Attempt blocked -- Cadet AP/TRP/01236 has already submitted this examination.

Info

Auto-saving answers. Last saved at 10:34:22.

Warning

12 minutes remaining. Your answers are saved automatically.

Toast messages appear bottom-right, stack upward, and auto-dismiss after 5 seconds. Errors do not auto-dismiss -- the cadet must acknowledge them. Toasts that confirm background saves (auto-save) use Info, not Success -- success is reserved for cadet-initiated actions.

06 -- VOICE & TONE

The portal speaks with the measured authority of the NCC. Precise, respectful, never casual. It never over-explains; it assumes the cadet knows their duty. Error messages are direct without being harsh.

Use -- Clear & Precise

- * Examination submitted. Your score will be available shortly.
- * You do not have permission to access this examination.
- * Session expired. Sign in again to continue.
- * 12 questions answered. 8 questions remaining.
- * Cadet AP/TRP/01234 has been suspended.

Avoid -- Vague or Casual

- * Oops! Something went wrong. Please try again!
- * You cant do this right now.
- * Uh oh -- your session timed out.
- * Almost done! Just a few more questions to go!
- * User has been disabled successfully!

Tone by Context

Context	Tone	Example
System success	Calm confirmation	Examination published successfully.
Validation error	Specific, not accusatory	Examination must have at least one question before publishing.
Destructive action	Clear consequence, no drama	This will suspend the cadet's access. This cannot be undone without admin intervention.
Empty states	Directive, not apologetic	No examinations scheduled. Create the first examination for this batch.
Timer warning	Factual, calm urgency	15 minutes remaining. Your answers are saved.

07 -- TERMINOLOGY GUIDE

Consistent language throughout the interface. The NCC has its own precise vocabulary -- use it. Never mix civilian equivalents with NCC terms in the same interface context.

Never Use	Always Use	Reason
Student	Cadet	NCC members are cadets, not students
Teacher / Admin	ANO / Officer	Associate NCC Officer is the correct title
Test / Quiz	Examination	Formal context -- the word carries weight
Roll number	Regimental number	NCC-specific identifier format
School / Institute	College	NCC units are affiliated with colleges
Group	Battalion / Unit	Use the correct organisational term
Delete	Remove / Suspend	Hard deletes are disallowed; use soft actions
Pass / Fail (verb)	Clear / Not clear	Less harsh phrasing for cadet-facing text
Dashboard	Command centre	NCC vocabulary -- use in display headings only
Sign up	Enrol	Cadets enrol, they do not sign up

08 -- ELEVATION & DEPTH

Four levels of surface elevation. Achieved through border weight and subtle shadow -- never through background darkening. The hierarchy communicates rank, not decoration.

Level 0 -- Page Background surface. Stone wash. For page bg only.	<code>border: stone-mid . no shadow</code>
Level 1 -- Card Standard content cards, table containers.	<code>border: stone-deep . no shadow</code>
Level 2 -- Raised Stat cards, active panels, selected states.	<code>border: stone-deep . shadow sm</code>
Level 3 -- Floating Drawers, dropdowns, dialogs.	<code>border: navy-pale . shadow md</code>

09 -- LAYOUT GRID

8-column grid within the main content area. The sidebar occupies a fixed 220px lane -- the grid applies to everything right of it. Max content width: 960px. Form panels: 520px. Slide-over drawer: 440px. Confirm dialog: 400px. Toast notifications: 360px.
